"...it's a living thing. I like to think about what was going on the year the grapes were growing; how the sun was shining; if it rained.

I like to think about all the people who tended and picked the grapes. And if it's an old wine, how many of them must be dead by now.

I like how wine continues to evolve, like if I opened a bottle of wine today it would taste different than if I'd opened it on any other day, because a bottle of wine is actually alive.

And it's constantly evolving and gaining complexity."
